

Meritor Part

Meritor Parts - Meritor is a leading global dealer that is proudly built on a 100 year tradition of service and quality. They concentrate on a broad range of modules, integrated systems and parts to original machinery makers and the aftermarket for the industrial and transportation trades.

Meritor prides itself in the company's distinctive energy and thinks that this particular energy contributes to their competitive advantage within the worldwide operations. The business values all of their clients and wishes to ensure their success while anticipating their various needs. Meritor begins with a philosophy which values diversity of people and their broad thought processes. Operating in 19 countries and employing over 11,200 individuals, Meritor promotes collaboration and innovation amongst a team of knowledgeable experts.

By just hiring future focused staff, Meritor strongly feels these top-caliber people will be able to rapidly adapt to changing environments and exhibit the performance and commitment needed to be able to achieve results in the competitive materials handling trade. The company empowers their teams to make sound business decisions in order to improve the overall success of the business. In return, Meritor offers all of their staff various chances for professional and personal growth.

The Advanced Engineering team is on the forefront of systems engineering and components. This includes drivelines, axles, braking and suspension systems designed for heavy duty and medium trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives which represent the entire Asia Pacific region. This particular team is even responsible for supporting the requirements of all their international engineering personnel.

The Quality team at Meritor is a customer-focused and dynamic group which is devoted to ensuring optimum growth at their production plants and aftermarket distribution facilities which are located on 5 continents and in 19 nations.

The supplier development network is specifically situated to be able to support new business growth. Regional teams are supported by global centralized specialties, initiatives and quality systems in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a data-driven, fact-based approach to decision making in every part of the company. The DFSS or Design for Six Sigma ensures product reliability in every region. The team is even comprised of transactional Green Belts who make use of Six Sigma tools to business techniques and apply lean methods.
