

Concrete Hopper

Concrete Hoppers - This particular accessory is a self-dumping hopper which automatically triggers to unload when bumper release touches the side of a dumpster. As soon as dumping is done, the hopper returns to a locked and upright position. This particular piece of equipment also comes together with a cable which enables operation from the seat of the forklift in order to have the choice of manually dumping the hopper. There is a locking chain provided to be able to secure the hopper to the fork truck. This particular product is constructed with reliable and consistent robotic welds for maximum strength. The lift truck dumping hopper even has a blue powder coat finish to be able to maintain durability.
