

TCM Forklift Parts

TCM Forklift Part - Forklift trucks are an important player in the material handling field of each global trade. Transporting industrial goods takes place each and every day on our industrious planet. Originally innovated as industrial vehicles during the 1930s in the United States of America, forklifts gained popularity after World War II during the 1940s. Becoming a reliable and efficient means to material handling solutions, the need and practicality of these machinery spread globally.

In nineteen forty nine, started by Mr. N. Niwa, the original Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was recognized. Currently the company is simply called TCM Corporation. Through the years, TCM lift trucks have become a worldwide leader in lift truck manufacturing and have built a solid reputation in the industry. TCM began constructing forklift manufacturing locations outside of Japan in the 1980s and is presently engaged in lift truck manufacturer at three foreign factories in China, the United States and Europe.

TCM proudly makes numerous models of industrial lift trucks with over 50 years of accumulated technology and expertise, making their products used and recognized all around the world. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and aspires to become a world-class leading business.
