

Advance-Nilfisk Parts

Advance-Nilfisk Part - Imagine how long and tiresome it will actually be to tidy up right after a party, without assistance from machines. Not too long ago, the dirt from upholstery and carpets had to be beat out of them by hand; brooms, brushes and cleaning cloths were the top cleaning products at the time.

P.A. Fisker, the man who founded Nilfisk-Advance, was an electrical engineer who loved working with electrical motors. Starting the company in the year 1906, he started to make motors in order to drive machine tools, coffee grinders, drills and fans. Mr. Fisker's dream from the beginning was to own a global company marketing goods internationally.

The Nilfisk C1 was a revolutionary breakthrough in the cleaning industry. Mr. Fisker invented a remarkable, ground breaking vacuum cleaner which could be operated by a single individual since it just weighed 17.5 kilos! This creation came in a time where various cleaning machines were very big and needed at least 4 operators, hence, the Nilfisk C1 changed everything and developed the method we clean forever. The genius behind these first cleaning machines remains unparalleled. Cleaning machines provide a brilliant solution to an existing dilemma; things get filthy and must be cleaned on a regular basis, without too much effort.

Slowly but progressively, Nilfisk-Advance grew all through the years. In the nineteen eighties, this development truly happened when the business became a part of the NKT Group. Their new owners' ambition and concentration made Nilfisk-Advance take a huge leap ahead within the industry, trying to be one of the leading global players in the market of professional cleaning machines. Nilfisk-Advance is presently found in every part of the world due to gradually acquiring numerous small companies in order to grow their product selection and presence in new markets. They are proud to present various cleaning solutions to suit each and every need.
